

## Pocumtuck/Deerfield Dialogue Assignment

Using the knowledge you've gained from reviewing the Chaulk deed and your understanding of expectations and actual practices of land use by both the English and New England Indians, create a dialogue that might have occurred when members of the Pocumtuck nation returned to the Deerfield area to make use of their usufruct rights to the land. In your conversation, you must include in the conversation the expectations of both sides in terms of their cultural practices, economic goals, and understanding of land ownership.
